Follow us on :

Mobility with Performance of Stationary Plant

The most striking feature of KYB-CONMAT Batching Plant is faster & easy erection/dismantling at site. It has welded frame structure & comes fully assembled from factory in three parts. It can be installed at site with standard "Pick & Carry" crane available locally. Requires only few hours for installation.

Low Maintenance Plant

Engineered to perfection, KYB-CONMAT Batching Plant requires minimum maintenance, thus assuring continuous performance. We have invested heavily in state-of-the-art designing & manufacturing techniques to make the equipment high productivity, which is not only efficient, but also performs in tough conditions.

Compact Overall Size

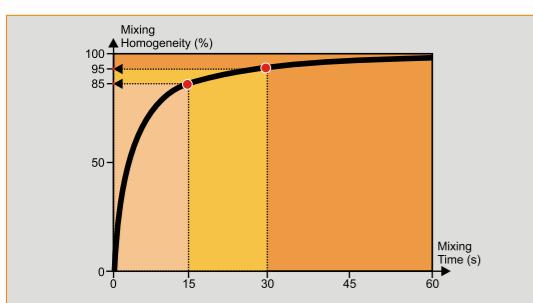

Sleek designed KYB-Conmat Batching Plant requires very less installation area & minimum civil works and hence good saving for customers.

Intelligent Controls

KYB-Conmat RMC Batching Plant comes with Intelligent PLC based Automatic Controls with SCADA.

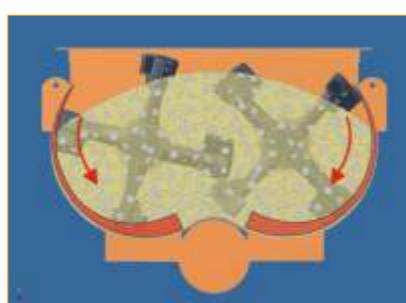

Advanced Twin Shaft Mixing Technology

Fast Mixing

Better Mixing Quality

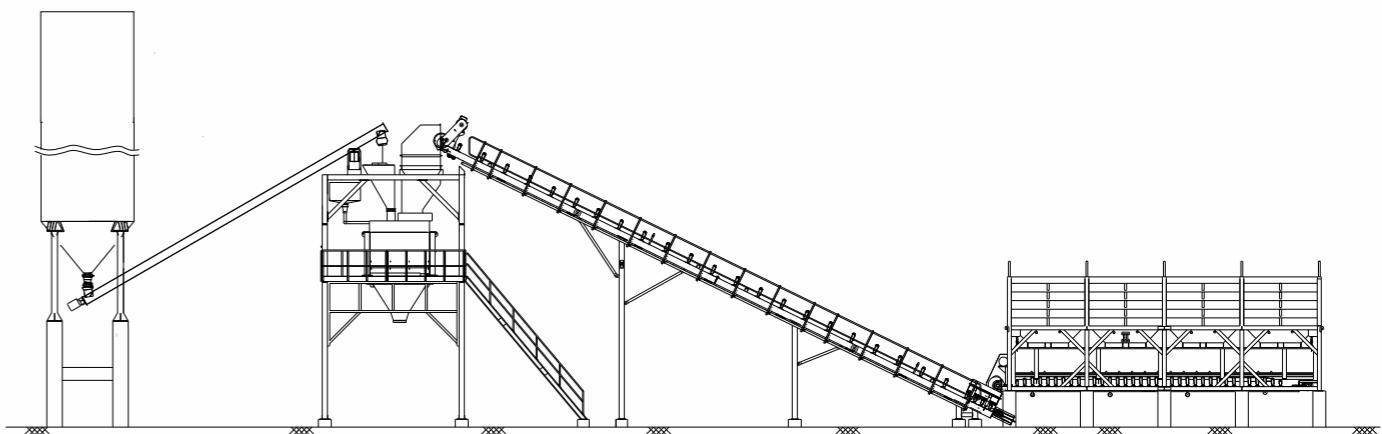

Long Wear Life

85% of the maximum mix quality i.e high compressive strength, constant slump etc. is achieved at 15 sec. itself initial and after another 15 sec. 95% homogeneity is achieved

All the particles achieve a three dimensional motion, thanks to intelligent placement of the mixing arms that creates a high degree of turbulence in the mixture.

Inherent Design of the mixer reduces wear of the tiles as compared to Pan & Planetary mixers, as only 30% of the tiles are subjected to wear. High quality of wear tiles ensures longer life.

Data & Facts

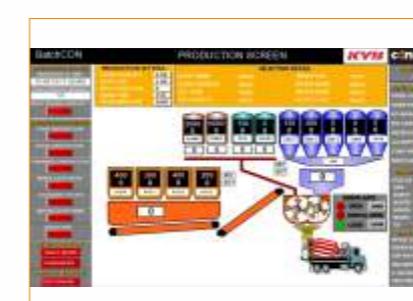

Technical Specifications

| Sr. No. | Description | CRP 900 IL | CRP 1200 IL | CRP 1600 IL | CRP 2000 IL | CRP 2400 IL |
|---------|---|-----------------------|-----------------|-----------------|-----------------|-----------------|
| 1 | Output Theoretical | 90 cu. mtr./hr | 120 cu. mtr./hr | 160 cu. mtr./hr | 200 cu. mtr./hr | 240 cu. mtr./hr |
| 2 | Nos. of In Line Bins | 4/5/6 | 4/5/6 | 4/5/6 | 4/5/6 | 4/5/6 |
| 3 | Charging Conveyor | Chevron Belt Conveyor | | | | |

* Dam Version Mixers for higher aggregate size mixing can be provided on request

Advanced Control System

Compact, Dust and Water Protected Control Panels

Chevron Belt Conveyor

Fully automatic PLC control system with SCADA for inventory management and multiple report generation. Any types of faults and errors will be diagnosed by the control system.

Belt Conveyor offers Long Life, Better Safety & Compactness to the plant
